Greetings Heather Corey-Mongue (Supposed Attorney at law... just kidding. I know you are one.)

I'm looking to provide you with evidence that should lead to a conviction in a court of law... against your own client.

Normally this process that I've referred to is called "backfiring". Backfiring... it's when you are very certain you'll win a case, and the exact polar opposite thing happens because you weren't prepared. So, **I'm throwing you a bone here.**

Because...? I suspect that your client has had assistance from the FBI in the lawless wiretapping of my residence and all of my communications. It's either that, or she just looks very culpable, culpable enough to cause at least (7 out of 12 jurors) to agree with me, that she should definitely **also** go to prison, in addition to the people I have been investigating...!

In fact, I left a voice recording for the director of:  
**The Federal Bureau of Investigations**  
**200 McCarty Ave, Albany NY**... on **July 30, 2020**...

Here's a link to that file.  
<https://drive.google.com/file/d/192nlnmMscQbPpKMP2J8qpziQayju9NYe/view?usp=sharing>

The last FBI employee I spoke with is "Chris Murphy". That was back in like February when I already had a video that could've been used to obtain a conviction against someone in that building... But... **I'm waiting for a much bigger fish than that.**

**This is merely a suggestion, but I would highly recommend dropping your case entirely.** It will look a lot better on you, to follow up on these links and video based evidence of my investigation into:

**[Primary Suspects]**

**Bruce Tanski**  
**John Hoffman**  
**John Pickett**  
**Dan Pickett**  
**Jesse Pickett**

**[Secondary Suspects]**

(The Director of **200 McCarty Ave, Albany NY**)  
(The Captain of the New York State Police Training Academy)  
(Pavel Zaichenko)  
(Dwayne Coonradt)  
(Joe Izzo)  
(Matthew Caldwell)

I believe some of those first (5) individuals have had contact with your client, or, at the very least... someone that your client knows. It could also be one of my secondary suspects.

This Racketeer Influenced Criminal Organization that they have going on... **well, it has been harassing me for well over a year.** I have evidence of Lisa Menten having her cell phone tapped as well as the people that I live with having their phones tapped. I can also have my children called upon as a witness in this case, to where they can verify the strange incidents on my equipment.

NYS/JGA-9433 attempted to run me over in his Black Cadillac Escalade on August 12, 2020, which was a day after I had talked with Spectrum and removed my mother's cell phone from NET10, who were attempting to scam my mother out of her minutes she paid for. The FBI was tapping that call, and I can contact Spectrum support representatives and get a confirmation from them that there was indeed wiretapping that was heard on her end.

Same goes for my uncle Rick Smith's house... He works at the State Police Academy. I have reason to believe that he knows these people that have been lawlessly wiretapping me with no legal reason to do so... because they had his line tapped when I spoke to my aunt Katherine Cook-Murray, a day or 2 after Fathers day.

**Police officers (People that have this thing called a "badge") have been abusing their authority whereby preventing me from being able to generate revenue.**

I have EVIDENCE of this. <https://nvd.nist.gov/vuln/detail/CVE-2019-8936>  
***I've got a LOT more than just that, sweetheart.***

That Critical Vulnerability and Exposure (CVE for short)...? It was a ransomware that required a badge and/or private encryption key from an authenticated trusted source... which was [time.nist.gov](https://nvd.nist.gov/vuln/detail/CVE-2019-8936)

**That's FBI/State Police.**

It spells "Pickett Brothers" all day long.

A CVE can range like person sustaining an injury... differing types and severity.

This particular CVE was so rare and highly damaging, that it resulted in the loss of clients. Multiple times, this authority was abused to steal money from me or clients of mine. Also, used by a police officer that is friends with **(2) separate former employers of mine, Nfrastructure, and Computer Answers.** I intend to make certain **that** particular police officer makes his way to prison... Not sure if you've ever heard of it before... but sometimes police officers go there when they do things that **Lisa Menten** asked them to do.

**As well as everyone that I suspect has been working with this guy.**

**That will most definitely include the person that Lisa Menten knows who is from Boston, which we will leave unnamed for the time being, because I'd like her/you, to sweat it out and drop the case entirely. I have no objection to Lisa having the kids temporarily. I have a very serious issue with custody being forcibly relinquished. I would go so far as to say, I will not be a happy camper.**

I have a VIDEO of GitHub offering me a sponsorship back in May... where I could get PAID for the job that I'm already highly seasoned at... I could be generating a minimum of \$350K per year like I did for:  
**Computer Answers...**

However, (2) days after that sponsorship was accepted...? **(2) Federal Contractors attempted to murder me in front of the Catricala Funeral Home,** I have a video on my phone which shows this dude having hacked my cell phone. That location is directly across the street from Computer Answers of Clifton Park, the main shop that I used to manage.

I have been investigating them as well as Nfrastructure Corporation.

If you have any questions or concerns, feel free to email me.

I would highly recommend taking a much closer look at the type and grade of work that I do.

It could theoretically, cause you to look like an idiot when you bring this case before the judge. You know? Federal agents attempting to kill me, and you pushing this on behalf of the kids, and somehow...

I would highly suggest that you get well acquainted with these videos.  
Your future credibility may depend on it.

My resume is on there as well.  
I wish you the best of luck ma'am.
