In this document, I will be covering the script "New-YouTubePortfolio" which can be found at this link:

<https://github.com/mcc85s/FightingEntropy/blob/main/Video/New-YouTubePortfolio.ps1>

...as well as the file that contains the individual properties and items to populate the object at this link:

Conclusion /

/ Script + Output

Here's the video that covers all of this.

<https://youtu.be/sqSMw4JzQoM>

Normally, I would have added quite a lot more commentary and even thrown in some story elements, however...  
...sorta exhausted at this point, and I think the video explains things in greater detail anyway.
