

It's not just the [content] of the [video] that [matters]. Nah.

It's ALSO the [things within the content] that matters.

But also, [the things that are NOT within the content], which require a [description/link], for [any person to travel] to, in order to [gain a better understanding] of the [content] within the [video].

In a world where [content is king], everyone should understand that sometimes [the king], as well as [those who serve the king] are [fucking morons].

In order to [describe] the [content], one must [understand the content being exhibited], as well as the [content] that is [NOT exhibited], which isn't really called [content], its called [knowledge].

Type	→	Term
Correct knowledge	→	Power
Incorrect knowledge	→	Stupidity

There exists [far more incorrect knowledge] than [correct knowledge].

Sometimes, people who are really 1) [BEAUTIFUL], 2) [IMPORTANT], or 3) [COOL]...?

They make it [extremely far in life] by [surviving + thriving] on [incorrect knowledge].

By the way, [incorrect knowledge] isn't actually [knowledge]... it's just [stupidity].

So, calling [incorrect knowledge] “knowledge”, is sorta like saying [a man who sucks another mans dick isn't gay]. But only [stupid people] who are in [denial], [would ever think something that stupid].

It is akin to saying that [people never lie].

[Everybody lies], though.

And, anyone who attempts to make the argument [not everybody lies...], [they're stupid].

Calling [incorrect knowledge] “knowledge”, is something that [only stupid people do].

And, like I said, sometimes those [stupid people] are 1) [BEAUTIFUL], 2) [IMPORTANT], or 3) [COOL].

That's not JUST an [opinion], because it is ALSO a [fact].

[Incorrect knowledge] isn't “knowledge”.

It's just a [bunch of morons], [joining forces in unison], congregating into [machines] that are [larger than life].

Some may call it [retarded voltron]. Others may call it something else, for instance: [the federal government], [the law enforcement system], [the justice system], [social media], [the news], [Entertainment Tonight].

What they don't like to tell people, is that [SOMETIMES THEY GET IT WRONG].

Who gives a shit what people call this [extremely powerful circle of people] that [form strong bonds] with one another, who ALL base their [incorrect knowledge] on [things that aren't even true]...?

[Nobody].

[Nobody] knows a god damn thing, because anybody that appears to know what the hell they're talking about...?

Well, [they could be WRONG about ANY GIVEN THING at ANY GIVEN MOMENT], UNLESS...

...they have this stuff that [retarded voltron] is [too lazy] to [review], called [evidence].

[Evidence] is what separates [stupid people] from [geniuses].

Sometimes, the [police] and [government] don't even bother to [collect it] nor to [review it], and then they [miscategorize certain people] just because they had a [mean look in their eye that day].

Forms of [unlawful] (verbal & nonverbal) communication:

- [unlawful] twinging of the eye, AKA “mean look in their eye”
- [unlawful] eyebrow movement of doom, AKA
- [unlawful] rolling of the eyes
- [unlawful] stupid opinions
- [unlawful] chuckling
- [unlawful] turning of the cheek
- [unlawful] (spinning/tilting) of a chair
- [unlawful] facial hair
- [unlawful] scoffing at someone making statements

All of these things are [unlawful]. So... don't do them.

[Don't be a dumbass] like some of the parties I mentioned above.

Be certain to [COLLECT & REVIEW EVIDENCE], otherwise you'll be permanently branded a [dumbass].
