Some people have a hard time accepting the notion of how some corporations have these things called "agendas". Take for instance, second cocksucker in command at the Fox News Network, Sean Hannity.

Most people don't know this, but- Sean Hannity is stupid.

He's not stupid in the sense that he doesn't sound EDUCATED and INFORMED when he speaks on a public broadcast. He's stupid in the sense that I'd like to talk about this video in particular...

| 11/11/2021 | Hannity: Biden bowing at the altar of climate change | https://youtu.be/smpJM315T7k |

What can be ILLUSTRATED here, is that this video featured on the Fox News YouTube channel, shows a man that is using a lot of terminology that is meant to overload people to the point where they just put their hands up, and then they say "Alright buddy~! You win~!" because people don't really like to THINK THAT HARD.

It seems to be the case, day after day, that few people in OUR SOCIETY put a lot of thought into stuff like late comedian George Carlin and various other comedians. Why...? Well, THINKING is HARD to DO.

THINKING is one of the most COMPLICATED THINGS that people can even do.

So, if people can offload the notion of THINKING to OTHER people to do all of the THINKING FOR THEM...?

Well, holy fuck, dude. That means that people can AVOID having to THINK.

Because of how fucking difficult it is, to THINK.

It probably sounds like I'm insulting people, but— I'm not. THINKING is the most difficult thing people can do. That is why MOST PEOPLE DON'T BOTHER DOING THAT AT ALL.

Thinking, is something that most people BELIEVE they do...?

But- they're lying to themselves on a daily basis, to allow someone ELSE, to do all of the thinking FOR them. UNLESS... the things that someone is expressing contain an INCREDIBLY RARE ELEMENT, called "TRANSPARENCY".

TRANSPARENCY and ACCOUNTABILITY tend to go hand in hand.

When people LIE about stuff, or pretend like something that's OBVIOUSLY TRUE, is FALSE...?

They're lying to themselves about whether what they do is MEANINGFUL.

They're lying to themselves about how COOL or IMPORTANT they are.

They're lying to OTHER PEOPLE about various shit that leads to incidents like Uvalde elementary, climate change or inflation.

Check it out.

This man pictured above, as well as Tucker Carlson, are only featured on Fox News because they push an "AGENDA".

Allow me to EXPLAIN what the "AGENDA" actually is. The "AGENDA" is to cause people to believe that this news organization is lookin' out for YOU and EVERY OTHER AMERICAN.

/--__/

Fox News: Listen up you fuckin' tools... stop whatever you're doing...?

And go buy some gas, right fuckin' now.

Buy oil TOO, while you're at it.

Buy vehicles that use gas and oil.

Fuck climate change dude, that shit is stupid.

250 mile F4 tornado tracks...?

Fake news.

That wasn't real, nor a record, nor was it climate change.

Hurricane Ian...?

That's fuckin' fake-ass news, too.

Didn't REALLY happen, and even if it did...?

It didn't cause THAT MUCH damage, nor was it climate change related.

Flooding in Texas, Alabama, Mississippi and all them east-coast southern states...?

That's been happening for centuries, my dude.

Everybody knows about it, so that's NOT climate change, it's climate FACT.

Wildfires on the west coast...?

Wildfires are natural, and they've ALWAYS burned down millions of acres of forest, so you're just PSYCHOTIC to think that wildfires are really all that bad to even begin with...

That's NOT climate change, that's climate FACT.

Uh, Lake Mead somehow at a 1/3 of it's normal capacity, reaching a historic all-time low...? Oh well, water moves around all over the globe, there's no way that anybody could ever relate that to climate change. Maybe the water just didn't like being there anymore. That's technically not even climate change, that's just water elemental behaviors and psychology 101.

You never heard of a water elemental...?

Well dude, you're a fuckin' moron because water elementals are creatures made of water, and they think just like people do... That's not even remotely close to climate change, that's just basic knowledge and you're fuckin' stupid if you didn't know that shit.

Fire elementals exist too, and that's why the wildfires keep happening my dude.

You're psychotic to think climate change is real.

Yeah. We just shot down all that shit... Fuck climate change, dude.

Oh, by the way... President Biden has single handedly caused all of this inflation.

Don't worry about how President Biden DID NOT SET UP AN AGREEMENT WITH THE TALIBAN...

Don't worry about how President Trump DID SET UP AN AGREEMENT WITH THE TALIBAN...

...which, if we were a REAL news organization that was REALLY LOOKIN' OUT FOR YOU and EVERY OTHER

AMERICAN, we would REPORT the DOMINO THEORY which PRESIDENT TRUMP CAUSED... starting with the TALIBAN, and ENDING with the \$1T of weapons, military gear, vehicles, aircraft, helicopters, bombs, ammunition, technology, and infrastructure, to be COMMANDEERED by the Taliban...

Don't worry about all of that REALLY RELEVANT SHIT.

We know you're stupid.

We dont' want YOU to KNOW, that WE think you are a fuckin' dumbass for listening to us. Why...?

Well, we do NOT want PRESIDENT TRUMP to look like an evil fuck AT ALL... because, all of that stuff that Americans paid for, during the 20 year war in Afghanistan...?

Man, it actually CAUSED the inflation that is seen here.

But- if we actually REPORTED THAT in THIS STORY...?

That would sound annoying, and it would go against our evil-ass agenda.

Further to that point... that actually goes against Republican ideologies and oil-company fat cat agendas TOO.

We would prefer NOT to CONSIDER THAT POINT, because (sounding/being) MORE TRANSPARENT and ACCOUNTABLE is something that we will spend our ENTIRE EXISTENCE RUNNING AWAY FROM DOING.

INSTEAD, we would rather play the BLAME GAME, and NEVER TAKE ACCOUNTABILITY FOR ANYTHING. Nah. If you think we do bad shit...? Then you're a REAL fuckin' scumbag, dude.

The ONLY thing that WE would PREFER to do...?

Is to blame other people, and never accept ANY blame at all.

Not one bit.

Fuck everybody.

Buy gas...?

Buy oil...?

Buy cars...?

And THEN, talk to your doctor about some fuckin medication that's gonna be in the next (5) commercials.

Fuck you.

Of course, if I start going around using ^ THAT particular strategy...? Who do you think is going to come around and start using that strategy in return...?

Uh- Rupert Murdoch and his legion of clammy-hand havin', bearded vagina-bearing fuckboys, that essentially throw together a statue of falsehoods on a daily basis... they're gonna talk some shit about me in return.

Murdoch : Oh yeah dude...?

We're Fox News.

You think you're real hot shit, don't ya...?

I'll fuckin' tape up a bundle of cash and have somebody throw the fuckin' thing at you so hard...? You won't even know what fuckin' hit ya, my dude.

 ${\tt Kid's\ gonna\ go\ around\ saying\ some\ shit\ about\ my\ beloved\ news\ network}...?$

tapping chest I don't fuckin' think so, dude.

__/--\

The problem is, people are gonna get upset with me for being honest with everybody. These guys aren't very straightforward or honest at all.

I can prove it, right now actually. Whenever Hannity doesn't have Murdoch's dick in his mouth, he will say something like:

| Hannity: Climate change doesn't exist. |

The very real dick that belongs to Rupert Murdoch in (Sean Hannity+Mike Pompeo)'s mouth is right here...

Last year, was the hottest year on record, and the last (8/10) were ALSO the hottest years on record. A description of the WEATHER over the last year...

```
di-chot-o-my

[dī'kädəmē] •1)

NOUN

a division or contrast between two things that are or are represented as being opposed or entirely different:
"a rigid dichotomy between science and mysticism"

synonyms: division - separation - divorce - split - gulf - chasm - difference - contrast - disjunction - polarity - lack of consistency - contradiction - antagonism - conflict - contrariety

• botany
repeated branching into two equal parts.
```

Need I go on...? Now, there is no PHYSICAL DICK in (SEAN HANNITY/MIKE POMPEO)'s mouth, it's a fucking METAPHOR.

Mike Pompeo found his way into this story by being the director of the Central Intelligence Agency, and having an axe to grind against Julien Assange from WikiLeaks, as he is the main reason why Assange has been extradicted to the United States to face ESPIONAGE CHARGES and 175 years in prison. (If I'm wrong about that, prove it.)

Mike Pompeo is a role model citizen when it comes to having integrity. (← sarcasm) To be perfectly clear, I am in NO POSITION to say that is ONLY a METAPHOR. There could be a very real penis in Sean Hannity's mouth after all.

And so, I have to draw up additional parallels, that sorta describe how easy it is for people with a lot of money, to basically cause people to doubt themselves. While I'm not talking about Tucker Carlson in this specific document thus far...? I'm gonna talk about a skit I wrote called "Sky High Stacks".

Tucker Carlson went to the Hoover Dam with his mother back when he was a little kid, and his mother just said "Fuck this, I'm outta here..." and left her son at the Hoover Dam. That's where Rupert Murdoch found this kid, and decided to take him under his wing.

```
Murdoch : Hey kid...
Carlson : *eyebrows up* Yeah...?
Murdoch : I'll help you find your mom, kid.
Carlson : You will...?
Murdoch : Yep. Come with me.
And ever since then...? Murdoch has been teaching this kid everything he knows.
Sorta like Anakin Skywalker being taught by Obiwan Kenobi...
It's been decades now, Carlson totally forgot about finding his mom...
Murdoch just kept teaching Carlson...
Murdoch : Alright kid, you wanna fuck with people...?
          Check this out...
Carlson : *watching*
Murdoch : This right here, is a stack of cash.
         What you wanna DO with it, is keep it nice and sturdy like this...
Carlson: *watching*
Murdoch : Then, you take some tape, and wrap it all the way around, like this...
Carlson : *watching*
Murdoch : Once you get the tape ALL the way around... guess what we're gonna do with it...?
Carlson : I... I dunno.
Murdoch : We're gonna go over to the window here, and open it up.
         Go ahead boy, open up the window.
Carlson : *opens window*
Murdoch : Alright, how high up do you think we are...?
Carlson: ...pretty high.
Murdoch : That's right kid.
         WAY too high up to even get in trouble for this...
Carlson : Ok...?
         What are you gonna do?
Murdoch : Well, you see that person walkin' there...?
Carlson : ...yeah?
Murdoch : In a minute, they're not even gonna know what the hell hit em.
Carlson : ...that might kill that person from this height...
Murdoch : Well, you never know.
          It might...?
         Might not.
         Who gives a shit?
Carlson: So... they might get hurt real bad...?
Murdoch : I mean, that's the point kid.
          Nobody is gonna believe that a stack of cash fell from the sky, and killed somebody.
          That's how stupid people are.
Carlson : ...wow.
```
